# Instructions

1. **To start the server click the 'Start Server' button, if the server starts successfully there will be a display message.**

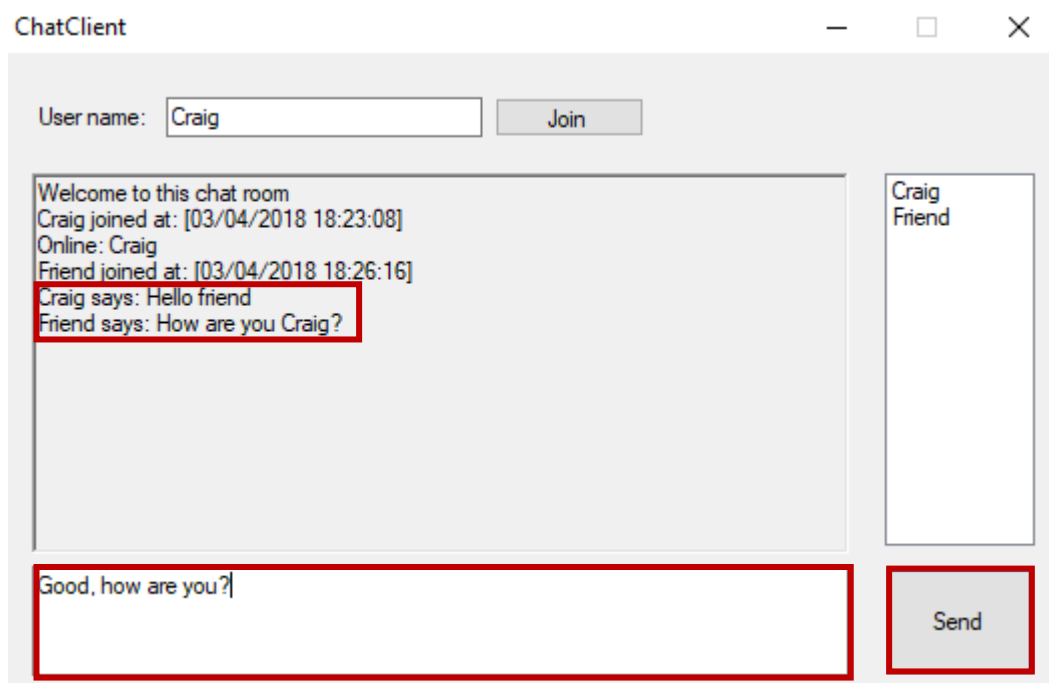

2. **Once the client has been started, enter your name and press 'Join', the time and date which you joined and your name will be displayed in the chat.**

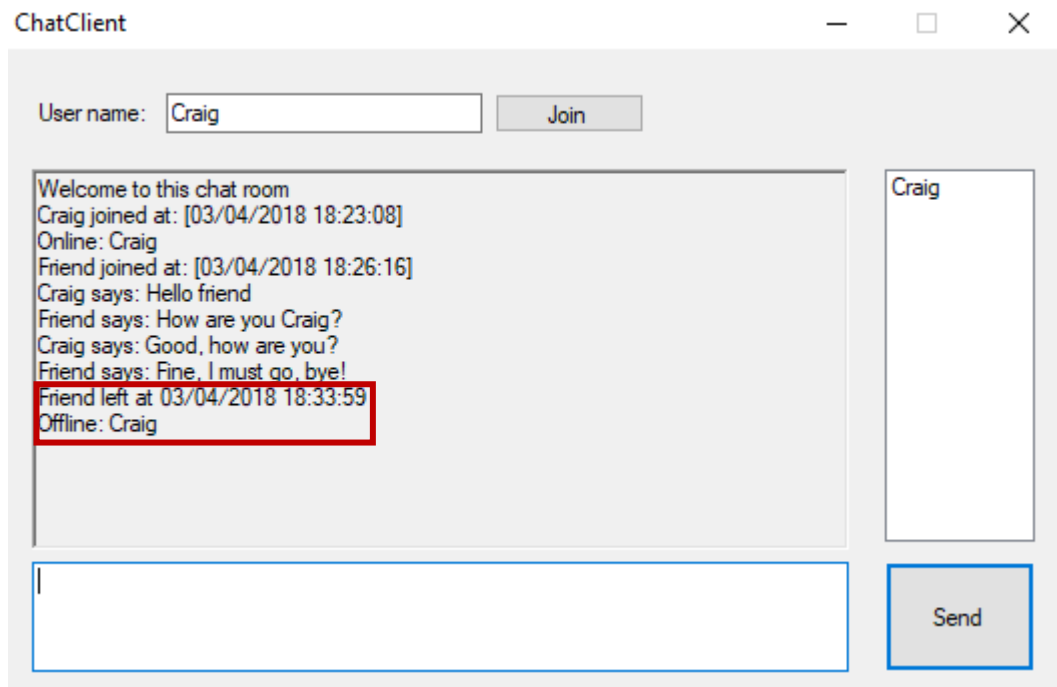

3. **Anyone else who joins will be displayed at the side on the list of users and their join time and name will be shown in the chat.**
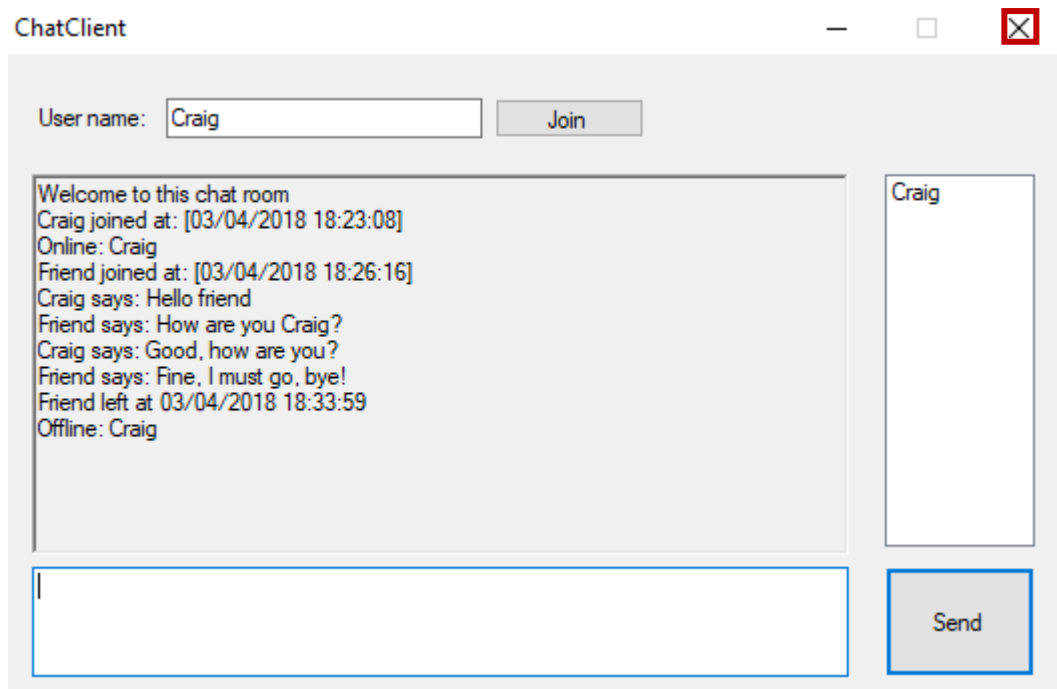

4. To exchange messages type your message in the text box at the bottom and then press 'Send', your message and any replies will be shown in the message box.

5. When someone leaves the chat it will be represented in the message box by their logout time and their name. (Outstanding Issue, name should say friend and not Craig)

6. To leave the chat, click the 'X' at the top right of the screen to close the chat window, this will close the chat channel.

7. To close the server simply click 'Stop Server' and if successful a message will be displayed.
